

User Guide

Introduction

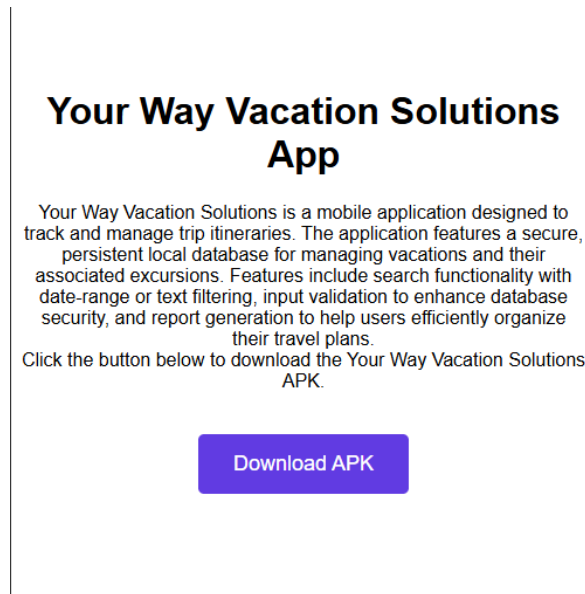

This user guide provides step-by-step instructions for installing and navigating the Your Way Vacation Solutions application. The guide covers all core functionalities, including adding, editing, searching, and deleting travel itineraries, managing associated excursions, and generating itinerary reports. The steps outlined below will help you plan and track your travel data effectively.

Installation and Using the Application

To install the application on your personal Android device, please follow these steps:

1. Navigate to <https://rycorson.github.io/capstone-app-hosting/> on your mobile device's web browser.

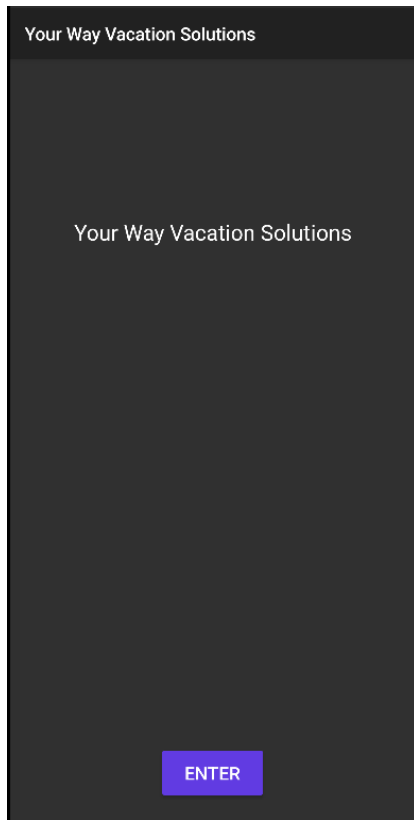

2. Download the “YourWayCap.apk” by clicking the “Download APK” button.

3. Open your device’s Downloads folder, tap the APK file, and select “Install”. (Note: You may need to allow “Install from Unknown Sources” in your Android security settings.)
4. Once installed, tap the Your Way Vacation Solutions application icon in your applications view to launch the application.

Your Way Vacation Solutions entry screen

When you first launch the application, the Your Way Vacation Solutions entry screen appears. Tap the “Enter” button to access the application.

Vacations

Upon entering the application, you will be directed to the Vacation List screen. The screen shows a list of all your currently saved vacations.

California Trip

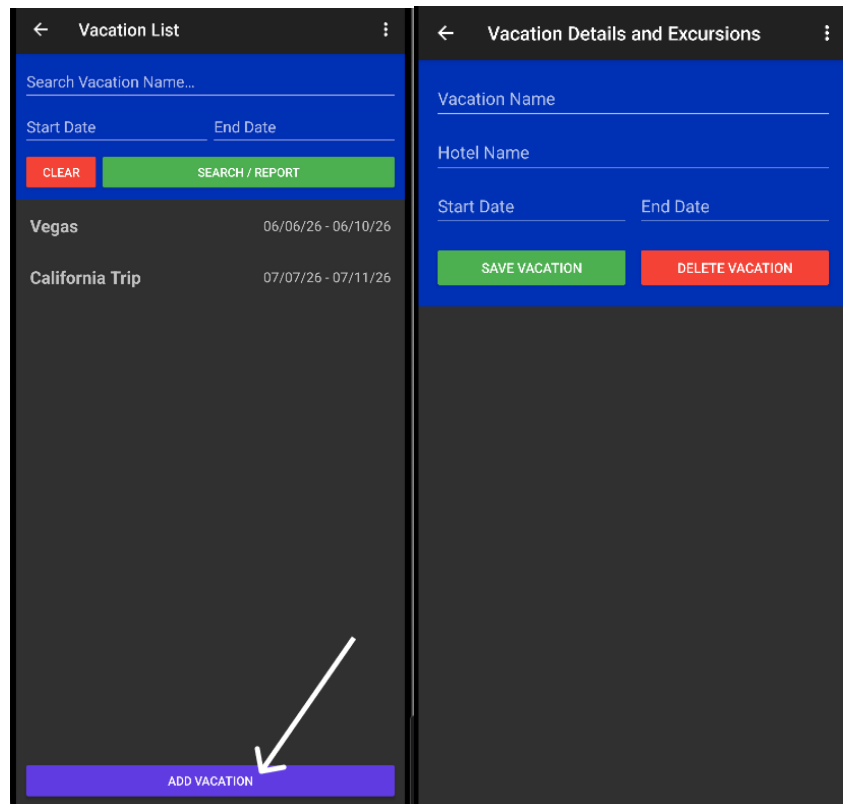

07/07/26 - 07/11/26

ADD VACATION

From this screen, you can access Search, generate Reports, add a new vacation, or select an existing vacation to view its details.

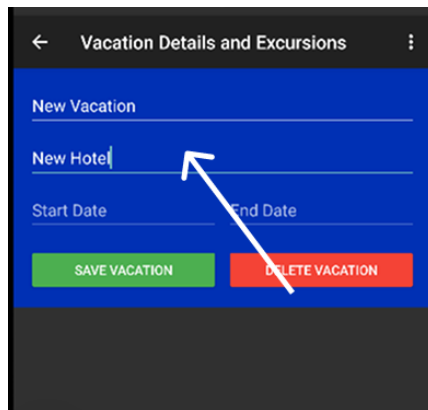

Add a New Vacation

1. From the Vacation List screen, tap the “Add Vacation” button to be directed to the Vacation Details screen.

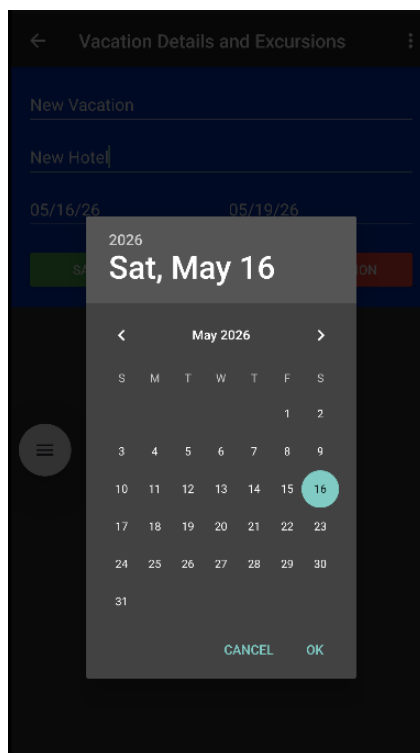

2. Tap on the Vacation Name and Hotel text fields to enter your details.
(Note: For security and data integrity, these fields only accept standard letters and numbers. Special Characters @#! Etc are not allowed and will

prompt an error message.)

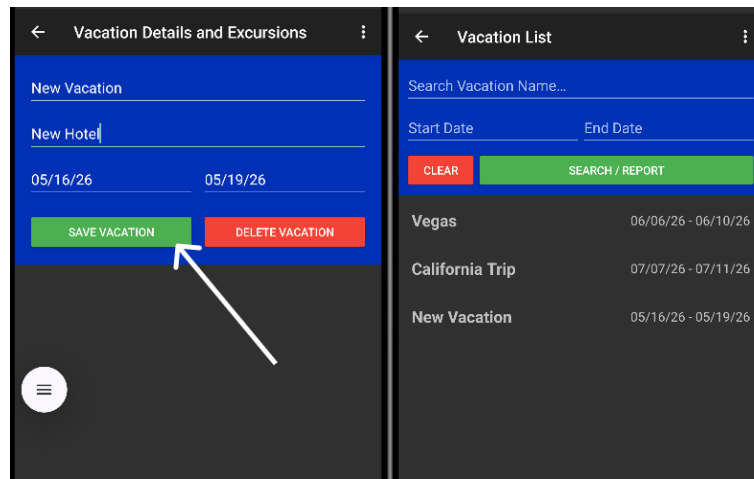

3. Tap the Start Date and End Date fields to open the Calendar picker and select your travel dates. The application will verify that your End Date does not occur before your Start Date.

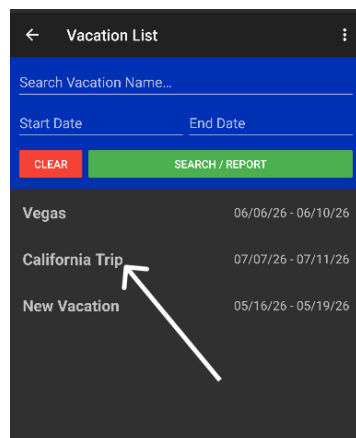

4. Once all information is entered correctly, click the “Save Vacation” button. Once the vacation is saved, you will be directed back to the

Vacation List screen, and your new vacation will appear in the list.

Edit a Vacation

1. From the Vacation List, click on any existing vacation in the list that you wish to update.

2. Make any necessary changes to the text fields or dates.

California Extravaganza	07/07/26 - 07/11/26
New Vacation	05/16/26 - 05/19/26

Delete a Vacation

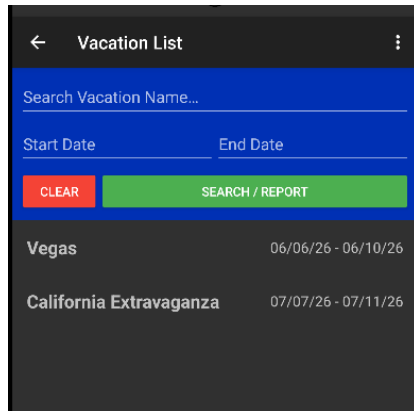

1. From the Vacation List screen, click on the vacation you wish to remove.

2. In the Vacation Details and Excursions screen, tap the “Delete Vacation” button. (Note: To prevent accidental data loss, the application will not allow you to delete a vacation if it currently has excursions attached to it. You must delete the associated excursions first.)

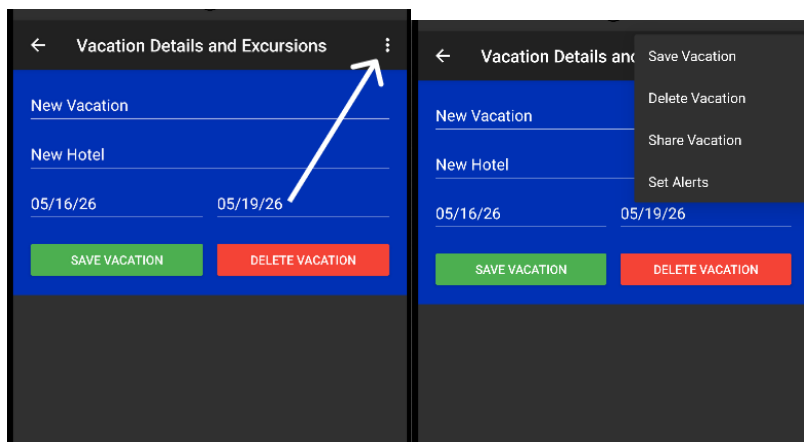

3. The vacation will be deleted from the database, and you will be returned to the Vacation List screen.

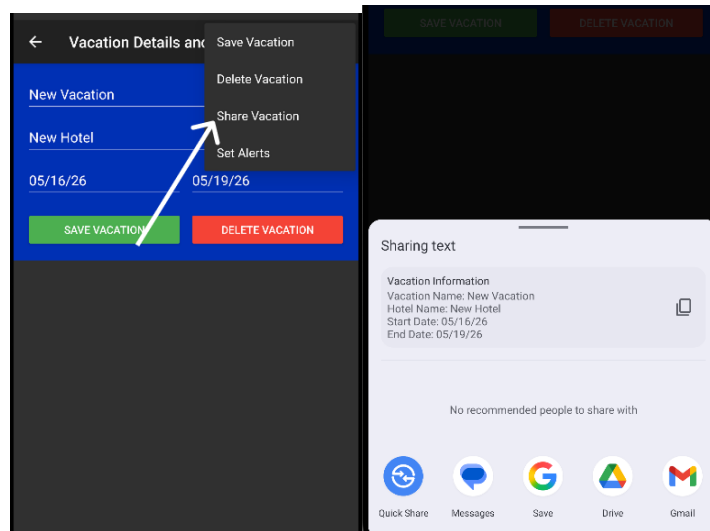

Share and Notify Features for Vacations

While viewing a saved vacation on the Vacation Details and Excursions screen, you have access to additional tools in the top right menu:

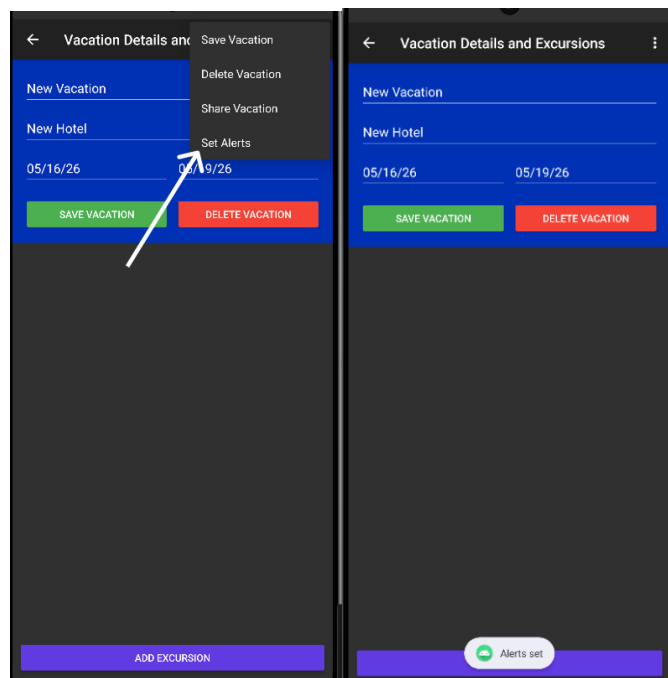

- **Share:** Tap the “Share Vacation” option to send a text-based summary of your vacation to other apps on your device, such as your email or messaging

client.

- **Alert:** Tap the “Set Alerts” option to set system-level notifications. The app will automatically schedule a notification to alert you on the day your vacation starts and ends.

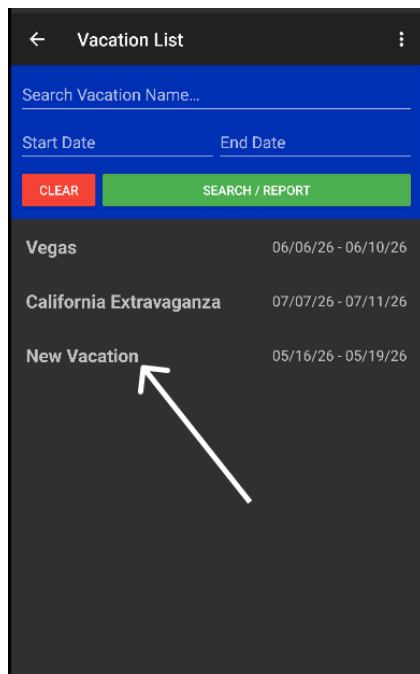

Excursions

Excursions, also known as activities, to take place during a vacation, can be added to vacations that have been successfully saved in the database.

Add an Excursion

1. From the Vacation List screen, tap on a saved vacation you wish to add an excursion to.

2. At the bottom of the Vacation Details and Excursions screen, click the "Add Excursion" button. (Note: This button is only available for saved vacations; excursions can not be added to a vacation that is actively

being created.)

SAVE EXCURSION DELETE EXCURSION

4. Tap the Excursion Date field to open the Calendar picker and select the excursion date. (Note: Excursions can only be added if they fall within the

date range of the associated vacation.)

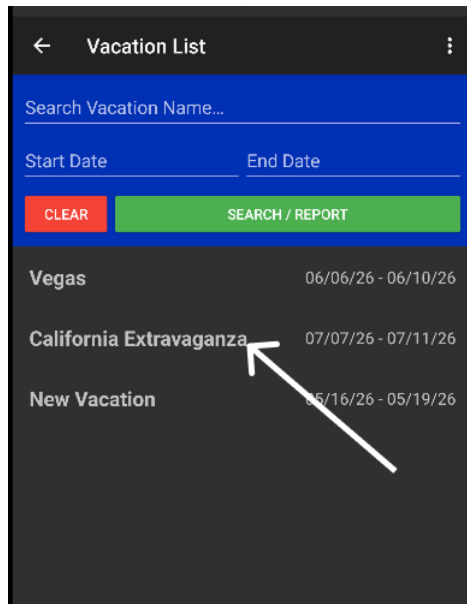

5. Tap the “Save Excursion” button to link this excursion to the selected vacation.

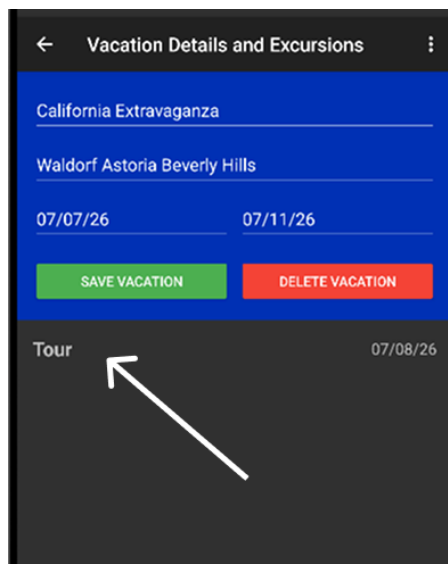

Edit an Excursion

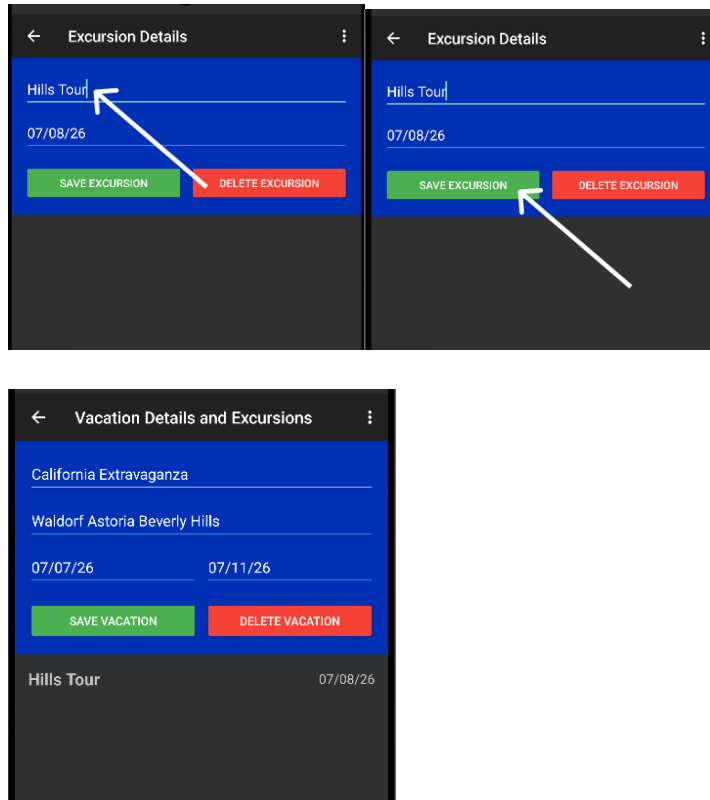

1. Select the vacation that contains the excursion to be edited from the Vacation List screen.

2. Select the excursion to be edited from the Vacation Details and Excursions screen.

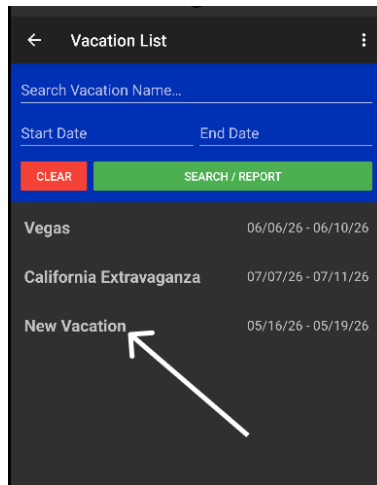

3. Edit the name or date of the excursion and tap the “Save Excursion” button. Changes to the excursion will be saved, and you will be returned to the Vacation Details and Excursions screen for the selected vacation.

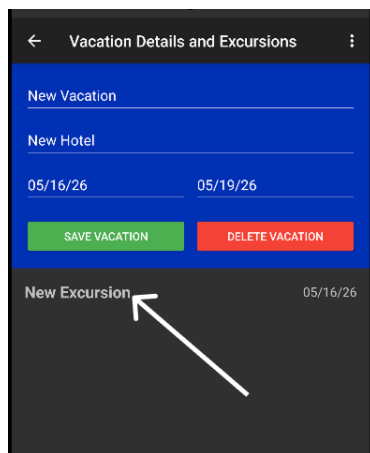

Delete an Excursion

1. Select the vacation that contains the excursion to be deleted from the Vacation List screen.

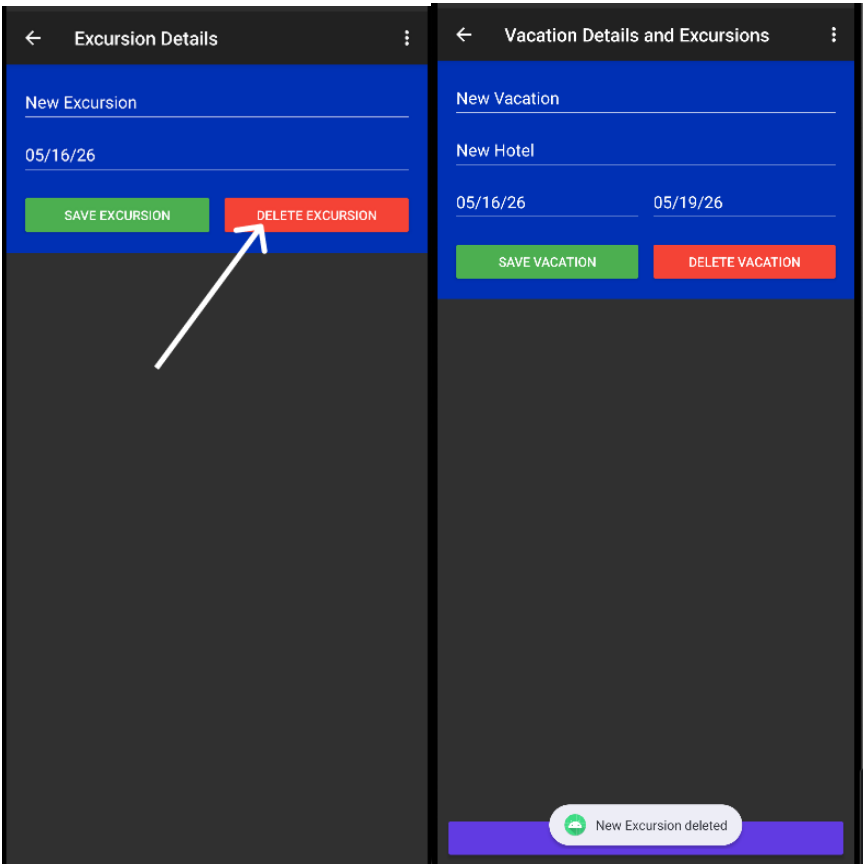

2. Select the excursion to be deleted from the Vacation Details and Excursions screen.

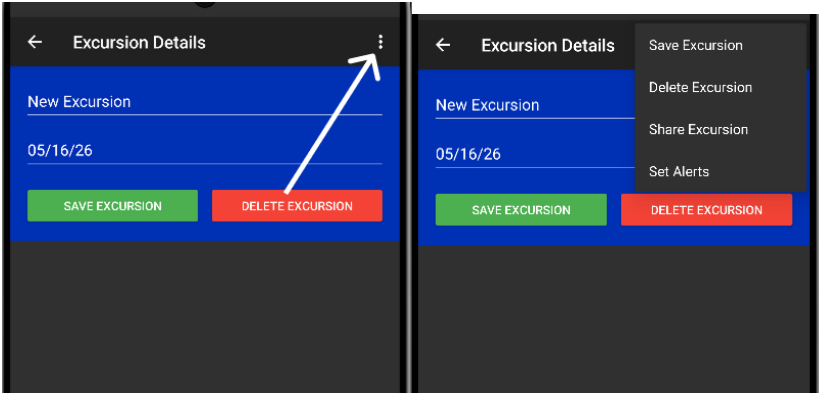

3. To delete the selected excursion, tap the "Delete Excursion" button. The excursion will be removed, and you will be returned to the Vacation

Details and Excursions screen for the selected vacation.

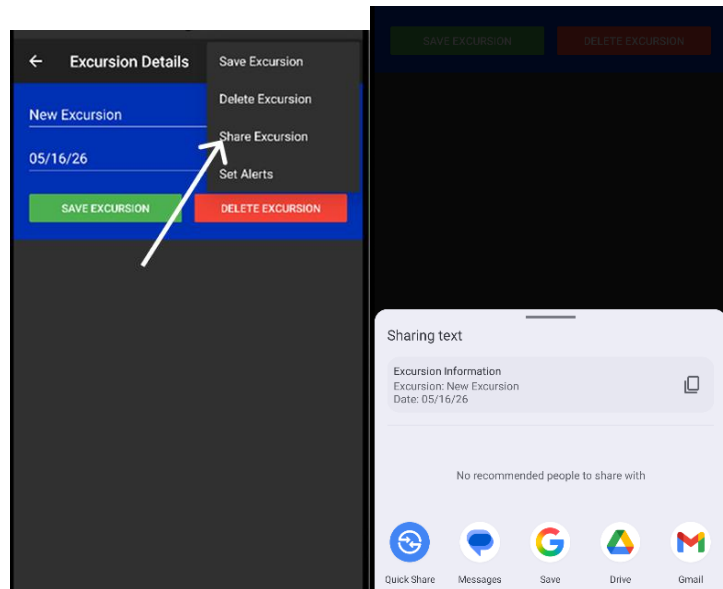

Share and Notify Features for Excursions

While viewing a saved excursion on the Excursion Details screen, you have access to additional tools in the top right menu:

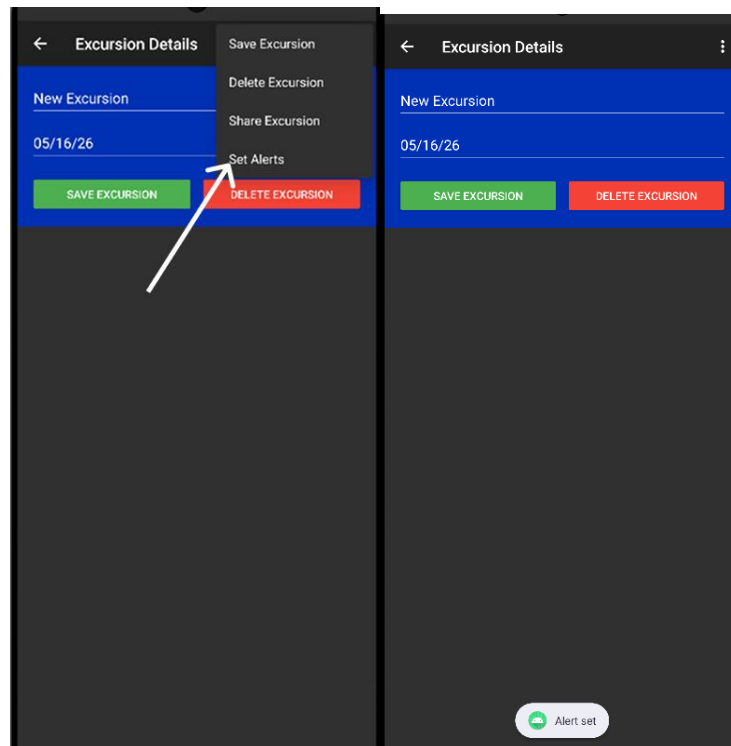

- **Share:** Tap the “Share Excursion” option to send a text-based summary of your excursion to other apps on your device, such as your email or messaging client.

- **Alert:** Tap the “Set Alerts” option to set system-level notifications. The app will automatically schedule a notification to alert you on the day of your

excursion.

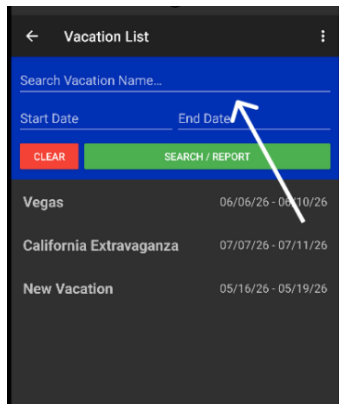

Search and Reports

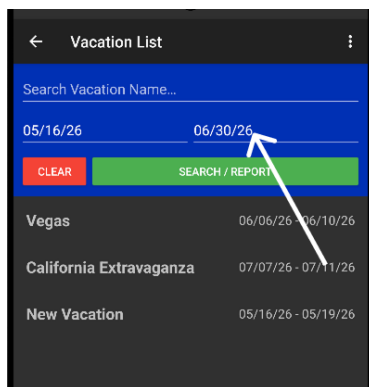

The search function on the Vacation List screen lets you find vacations by search terms or date ranges. The search function includes a built-in reporting feature that generates a report for the returned search result that can be copied to the Android device's clipboard to paste into other applications, or exported and sent via messaging applications installed on the device.

Searching for a Vacation

1. On the Vacation List screen, locate the Search bar near the top of the screen.

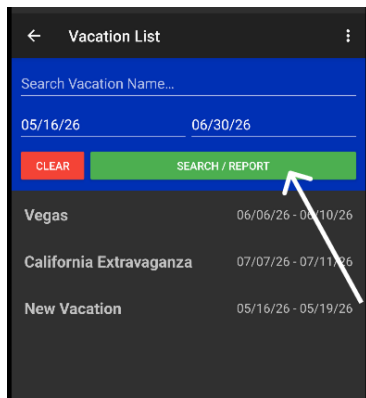

2. Type in the name of the vacation you are looking for, or search for vacations that fall within a date range using the Start Date and End Date fields.

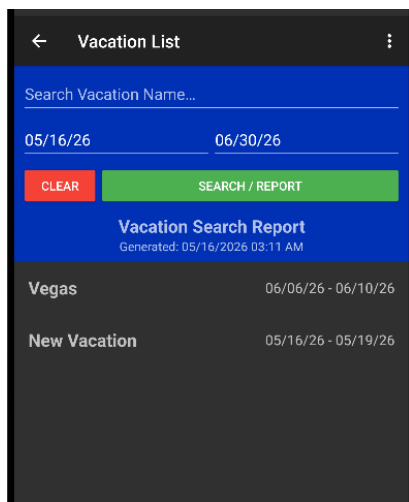

3. Click the "Search/Report" button to retrieve search results. (Note: You can clear search input by tapping the "Clear" button next to the

“Search/Report” button.)

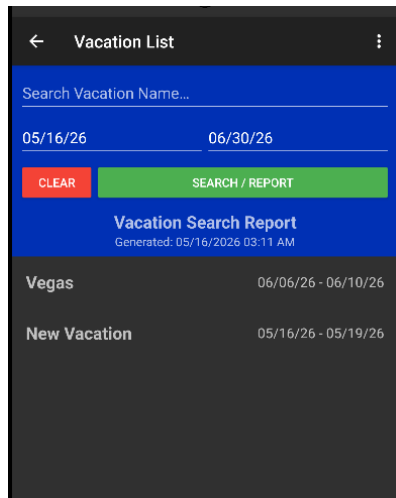

4. The Vacation List will automatically filter to display vacations that match your search criteria, making it easy to find specific trips in a large list.

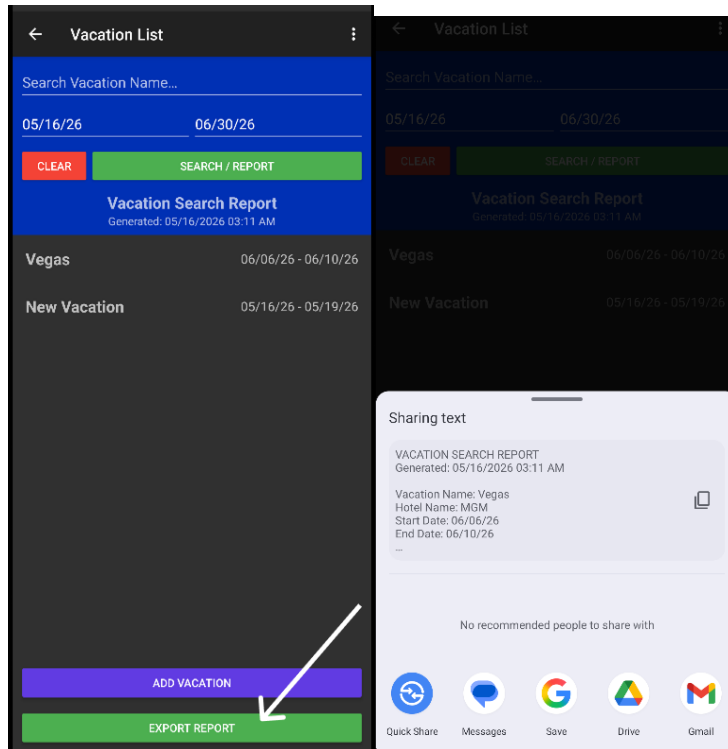

Generating a Report

1. On the Vacation List screen, perform a search for vacations you would like to generate a report for.

2. Once the search results have been returned, tap the "Export Report" button that appears at the bottom of the screen. A time-stamped report will be generated from your returned search results.

The report will include the following for each vacation in the results:

- a. Vacation Name
- b. Hotel Name
- c. Start Date
- d. End Date

You can copy the generated report to your clipboard to paste into other note applications, or you can send the report to other apps on your device, such as your

email or messaging client.
